Metrics and You !

Break Out Session 12

Presented by

Jim Manley - DCMDW-O

Dwayne Bennett - DCMDW-O

XXI

Agenda

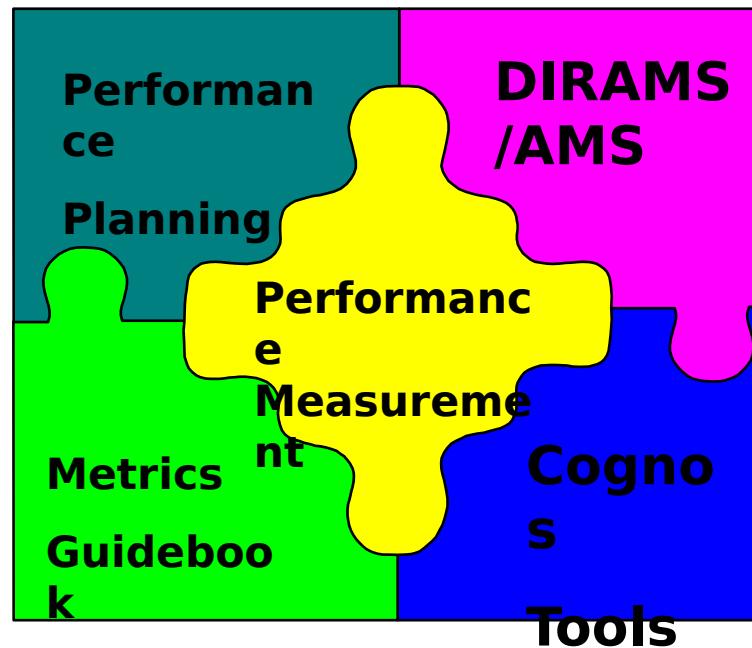

- **Metrics and You**
- **DIRAMS future**
 - **System Architecture**
- **Data Integrity - The Important Part**
- **Cognos Tools**
 - **Where are my Cubes and Catalogs ?**
- **Business Information Center**
- **References**
- **???????**

XXI

Metrics and You

- Metrics are DCMCs way of measuring aspects of our performance relative to process outputs.

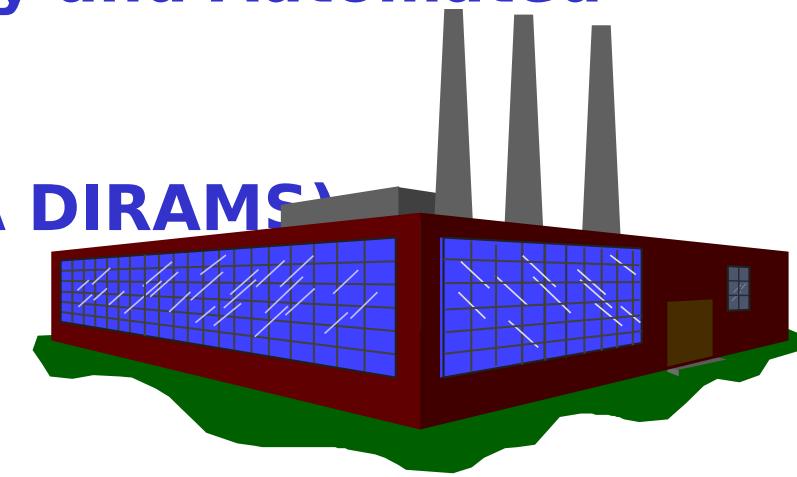

XXI

DIRAMS

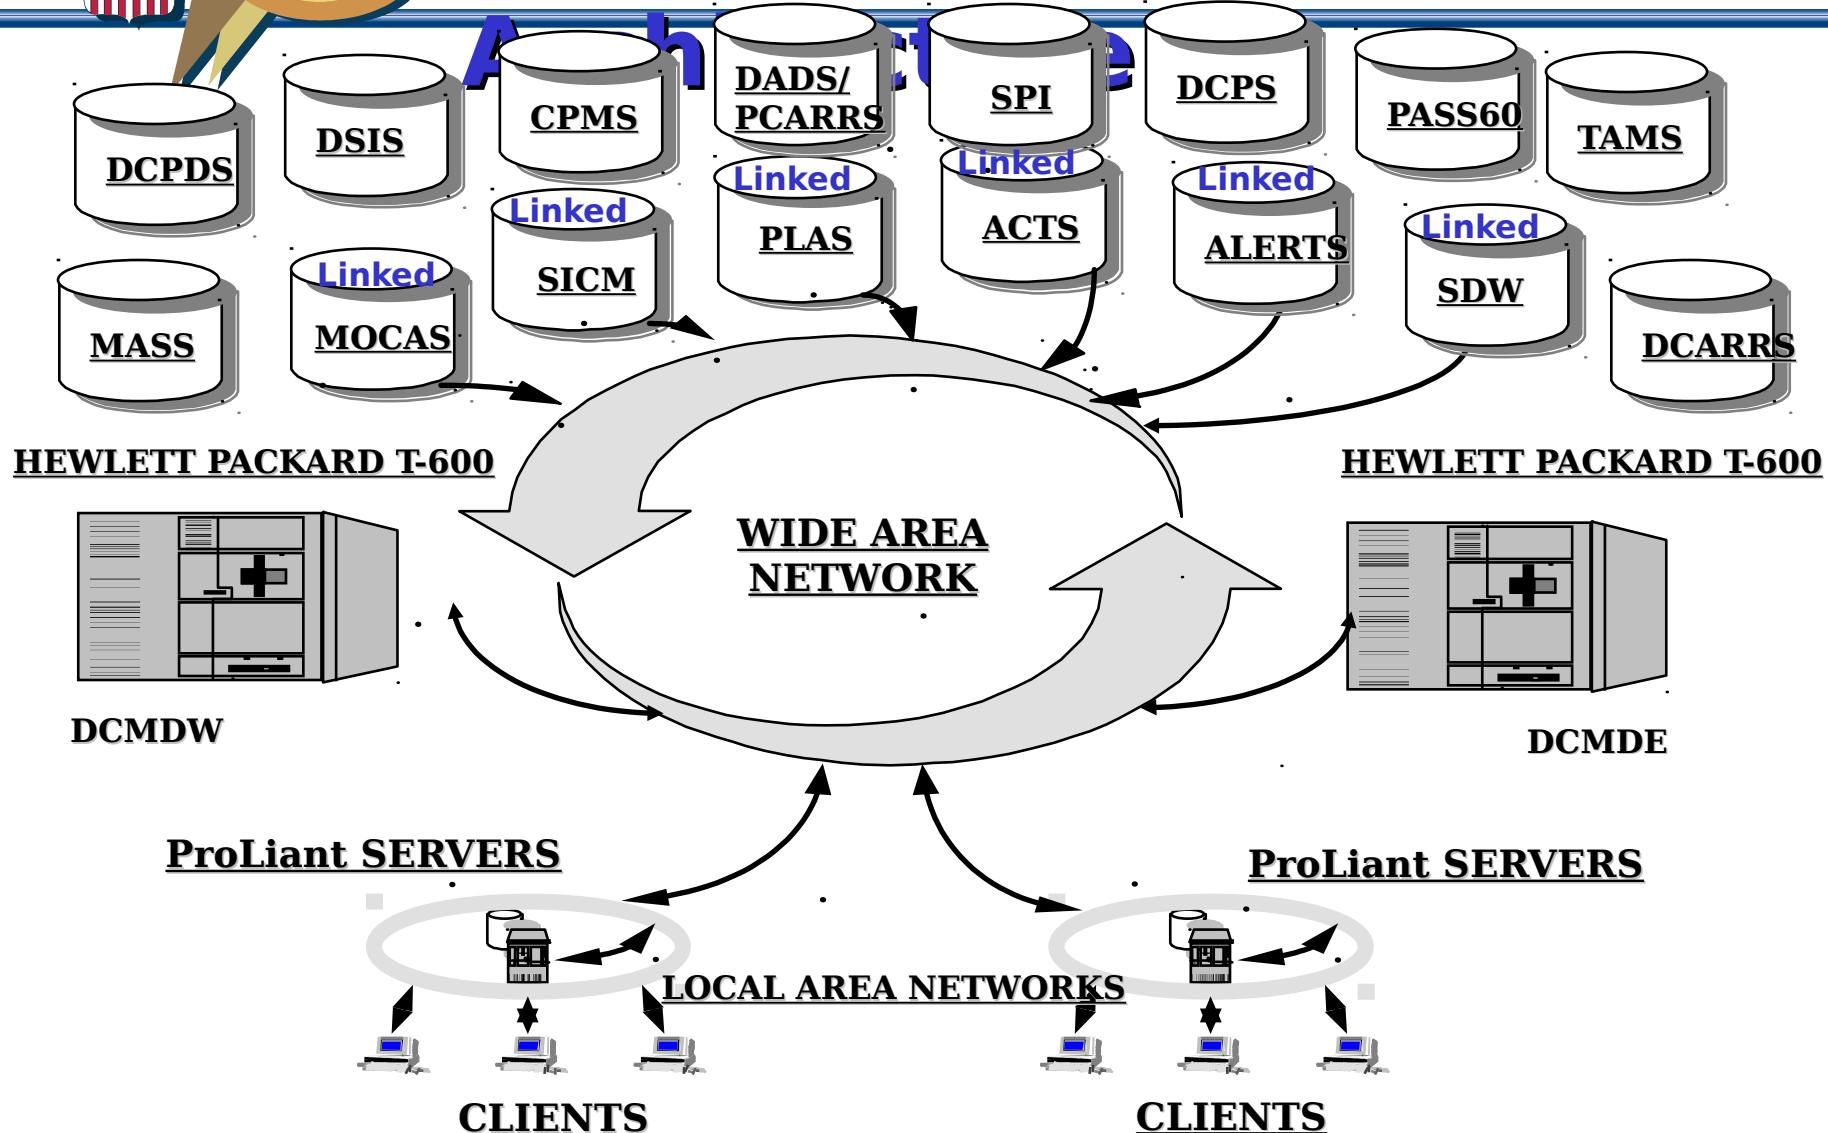

- **DCMC Information Repository and Automated Metrics System**
- **Currently AMS 4.10 (AKA DIRAMS)**
 - **Linked to 6 databases**
 - **31 unique input screens**
- **This summer DIRAMS 5.0 will be deployed with linkage to 10 additional databases**
 - **Over 150 enhancements/revisions to existing input screens.**
 - **Remove obsolete input screens (5).**
 - **Add new input screens (9).**

Data Integrity Process

- **Data Integrity**
 - **Input accomplished at the team level by individuals initiating or completing a process action such as a pricing case, preaward survey, EVMS report, etc.**
 - **Starts at the user input level.**
 - **Management at all levels should verify that data represents a true picture of CAOs workload.**

Performance Improvement Officer

- **Most Valuable Asset - facilitation**
- **Ensure Cognos Tools and files used to retrieve data are available.**
- **Conduct periodic reviews to ensure data input/output is correct and timely.**

XXI

Cognos Tools

- **PowerPlay**
 - Data is stored in a static form known as a Data Cube.
 - “Cubes” allow for multidimensional analysis of data.
 - Reports can be developed and saved.
- **Impromptu**
 - Data Reviewed in “Real Time” utilizing a catalog.
 - A catalog facilitates attachment to database.
 - Pre-defined reports or ad hoc queries used to display data.

Business Information Center

- **Staffing**
 - **Proposed - Mix of Government and Contractor Personnel**
 - **Final combination - TBD**
- **Responsibilities**
 - **Catalog Creation**
 - **PowerPlay Cube Creation**
 - **Predefined Report Creation**
 - **Version Control on All Tools**
 - **Metrics Guidebook Update**
 - **PowerPlay and Impromptu Web Site Maintenance**
 - **BIC Customer Support Web Page Maintenance**
